'Connect Fours' - Perlorodka říční

(11 possible sets; each game will choose 4 randomly)

A great team quiz to revise key words and the connections between them!

You will see a wall of 16 clues.

You need to group them into 4 rows of 4 connected items.

Simply **click four cards** to identify a group.

You score 1 point for each group found within 2.5 minutes.

You have unlimited guesses for the first two groups.

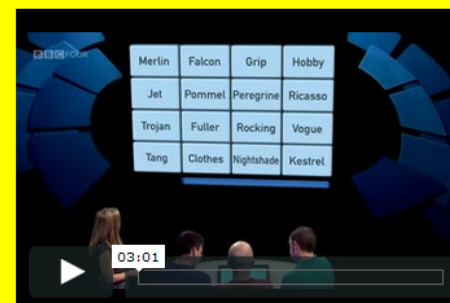

After completing 2 groups, you have 3 chances to create the final 2 groups.

After arranging all 4 groups (or when time runs out) the correct groups are shown.

You can earn 1 point per group for identifying the connection between them.

If you spot all 4 groups and all 4 connections, you gain a 2-point bonus (a total of 10 points).

This quiz is based on, but is not affiliated with, the 'connect wall' element in the BBC quiz show 'Only Connect'
